MortgageTech®

Encompass Web for Power Users

Screens built for people who actually use Encompass all day. Non-responsive layouts, multi-monitor support, and everything you need — one click away.

BUILT BY MORTGAGETECH • POWERED BY WEBFX

Designed for Real Mortgage Workflows

MortgageTech has been building Encompass screen solutions since 2010. Our Web screens are informed by **hundreds of client implementations** — we know what power users need because we've watched them work. Every layout decision is based on real production feedback, not theoretical UX.

Web Power Users vs. Standard Web

CAPABILITY	STANDARD WEB	MT POWER USERS
Fixed-width data-dense layouts		✓
Multi-monitor pop-out sections		✓
Loan-level docs, dates & links hub		✓
Workbook-style tabbed navigation		✓
Pipeline & reporting views	✓	✓
Role-based persona screens	✓	✓

"Stop adapting to Encompass Web. Make it adapt to you."
