# Encompass SDK — Full Write Access Unlocked

Instance BE11146040 · SDK v25.4 via EncompassBridge · REST API + Internal APIs

SDK V25.4

### REST API Alone

Custom field PATCH works — but **all business rule endpoints return 403 Forbidden**. Can't read or write field triggers, data entry rules, milestone rules, field access rules, loan access rules, or print form rules. Can't activate/deactivate rules. Can't manage milestones or templates.

`GET /encompass/v1/settings/loan/fieldTriggers → 403`

### SDK + Internal APIs

**Full CRUD on every admin setting** via `IBpmManager`, `IConfigurationManager`, `IFormManager`, `IAclGroupManager`, and `IServerManager`. Read, create, update, delete, activate, and deactivate any business rule type. Manage milestones, templates, custom fields, documents, personas, and more.

`BpmManager.UpdateRule(rule, true) → ✅`

| 6 | 5 | 17,357 | 3,080+ | 24 |
|---|---|---|---|---|
| BUSINESS RULE TYPES | INTERNAL MANAGERS | CUSTOM FIELDS | CALCULATED FIELDS | DATA CATEGORIES |

## SDK WRITE CAPABILITIES — WHAT WE CAN NOW DO

### Business Rules WAS 403

- `UpdateRule(BizRuleInfo, isGlobal)`
- `CreateNewRule(BizRuleInfo, isGlobal)`
- `DeleteRule(type, ruleID, isGlobal)`
- `ActivateRule(type, ruleID, isGlobal)`
- `DeactivateRule(type, ruleID, isGlobal)`
- `GetRule / GetRules (all 6 types)`

### Custom Fields REST + SDK

- `UpdateLoanCustomField(fieldInfo)`
- `UpdateLoanCustomFields(bulk, cache)`
- `DeleteLoanCustomField(fieldID)`
- `DeleteLoanCustomFields(fieldIDs[])`
- `GetLoanCustomField / GetLoanCustomFields`

### Milestones WAS 403

- `CreateMilestone / UpdateMilestone`
- `DeleteMilestone(milestoneId)`
- `SetMilestoneOrder(ids[])`
- `CreateMilestoneTemplate(tpl, rule)`
- `UpdateMilestoneTemplate(tpl, rule)`

### Loan Folders & Access WAS 403

- `SetLoanFolderAccessRule(rule)`
- `GetLoanFolderAccessRules()`
- `DeleteLoanFolderAccessRule(folder)`
- `SaveDocumentDefaultAccessRules()`
- `GetAllowedOriginationLoanFolders()`

### Templates & Documents WAS 403

- `SaveTemplateSettings(type, entry, data)`
- `SaveDocumentTrackingSetup(setup)`
- `SaveDocumentGroupSetup(setup)`
- `AddConditionTrackingSetup(template)`
- `SaveCustomLetter(type, entry, data)`

### Server & System WAS 403

- `SetCompanySetting(section, key, val)`
- `SaveSystemSettings(name, data)`
- `SaveCustomDataObject(name, data)`
- `SaveEDisclosureSetup(setup)`
- `SaveCustomFormDetail(formDetail)`

## CONFIRMED BUGS — READY TO FIX

| FIELD / RULE | BUG | FIX | SEV | STATUS |
|---|---|---|---|---|
| `CX.LOCKSNAPCHECKALL` | Duplicate `LOCKSNAPLOAN11`, missing `LOCKSNAPLOAN20` (Warn Margin) | Replace 2nd `[CX.LOCKSNAPLOAN11]` → `[CX.LOCKSNAPLOAN20]` | HIGH | ✅ FIXED |
| `CX.UWIC.COMM.M.TOTAL.C` | References `CX.UWIC.COMM.2012.MC` — field doesn't exist | Change to `CX.UWIC.COMM.2012.M.C` (missing dot) | HIGH | ⏳ Ready |
| `CX.UWIC.COMM.M.TOTAL.C2` | References `CX.UWIC.COMM.2012.MC2` — field doesn't exist | Change to `CX.UWIC.COMM.2012.M.C2` (missing dot) | HIGH | ⏳ Ready |
| `CX.FX.PW.EXCFEE` | SumAny covers 25, 28, 29 — skips FEE26 & FEE27 (both exist) | Add `FEE26`, `FEE27` to SumAny (needs biz review) | MED | 🔍 Review |

| | | | | |
|---|---|---|---|---|
| `CX.FX.PW.EXCRATE` | SumAny covers 25, 28, 29 — skips RATE26 & RATE27 (both exist) | Add `RATE26`, `RATE27` to SumAny (needs biz review) | MED | 🔍 Review |
| *17 Loan Access Rules* | All 17 loan access rules are set to **Disabled** | Re-enable via `ActivateRule()` after review | CRIT | 🔍 Review |

## EXISTING INFRASTRUCTURE — READY TO GO

### ENCOMPASSBRIDGE.CS

Session connect + 5 internal managers via reflection. Proven connection pattern from MtgTech ControlPanel.

`c:\Dev\EncompassSettingsPlugin\src\`

### BUILD.PS1

Compiles C# with `csc.exe` against DLLs in `ControlPanelStage\`. No Visual Studio needed.

`csc /target:exe /out:tool.exe`

### SDK V25.4

Full install at `c:\Dev\Encompass254\` with Runtime, SmartClient, ClientServer, BusinessRules DLLs.

SDK + BRA data + 41 data files

### API CATALOG

830-line catalog of all 24 data categories, SDK paths, properties & methods documented.

`SDK-API-Catalog.md`
